Our Approach

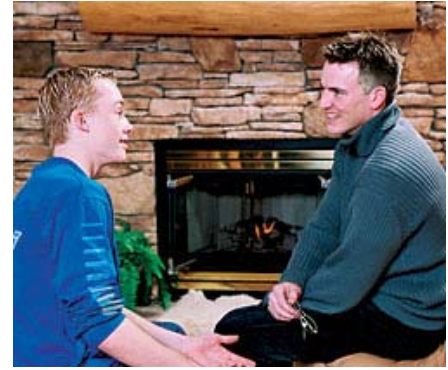

Venture Academy's Christian Counselling provides therapeutic counselling and practical support services for youth and young adults. Our Counsellors implement a solution oriented approach from an interdenominational Christian based perspective.

Youth participate in services while living at home or when residing in our professionally staffed and supported homestay residences.

Our services may range from weekly sessions with a Youth Counsellor, intensive "family preservation" with a counselling team, to residential treatment in a caring Christian environment.

Venture Academy supports young people in developing and implementing strategies that improve their everyday functioning and have an **ongoing positive impact** on the quality of their lives.

We focus on skill building and solutions.

Benefits

Immediate Response	We accommodate admissions at the earliest possible date. No wait lists.
Customized Services	Individually developed service plans to address "youth specific" needs.
Impact	An abundance of "one on one" time spent with our Counsellors resulting in closer more therapeutic relationships.
Results	Programs are located in real communities essential for skill transference. No transition from an isolated or artificial environment triggering a relapse.
Accountability	We track and measure outcomes in order to remain accountable and prove client success.
Confidential	Your son or daughter's enrolment in Venture Academy is your business. No government involvement necessary.

Peace of Mind...

Parents are assured that their sons and daughters participating in a Venture Academy's Christian Counselling services have the help and guidance they need to **establish goals** and **create success** in their lives and refocus on God and family.

Youth benefit by being accountable to their Counsellors who carefully monitor and support them in working through their agreed-upon treatment goals. For youth, these elements ease the transition of accepting the challenge of dealing with identified treatment issues.

For parents, our programs provide the **peace of mind needed** when a son or daughter is receiving help.

Locations

Home Communities

Venture Academy offers youth and families access to our programs while retaining supports and relationships in their home communities. Providing treatment services in a "real" environment is crucial for skill transference.

Alternate Locations

In some circumstances, youth may be entrenched in a damaging and destructive lifestyle. A temporary change in environment offers opportunity for a fresh start and a chance for youth to break free from unhealthy behavioural patterns. In these circumstances youth may access a Venture Academy program in an "out of town" location.

Please call or visit our website for all locations.
